

ARMY SUPPLIES BURN AT WASHINGTON, D. C.

THOUSANDS OF DOLLARS WORTH OF ARMY SUPPLIES WENT UP IN SMOKE AND FLAMES

FIRE OF UNDETERMINED ORIGIN

Washington, Jan. 14.—While soldiers and firemen battled in the face of exploding munitions which shook the vicinity, flames gutted the Quartermaster Corps building at the Washington barracks here today. The loss may reach \$200,000. An immediate investigation was ordered by Secretary of War Baker who went to the scene immediately after the fire started and remained until it was out, shortly after noon. Lieutenant Colonel J. H. Earle in charge of the building said that they suspected no one of firing the structure—a three story brick building covering an entire block. The guards were doubled at the building as soon as the fire was discovered and no one was allowed to enter or leave. No arrests have been made.

Washington, Jan. 14.—Fire swept the Quartermaster's supply building and the post commissary of the Washington barracks today. Several minor injuries to soldiers and fire fighters were reported. The origin is unknown. Explosions caused by small arms munition caused fire fighting work dangerous.

Informed of the blaze Secretary of War Baker left for the scene shortly after ten o'clock and found the flames leaping from all sides of the building. Orders were given to remove all supplies. Marines located in the barracks were hard at work. The building contained rifles, cartridges, belts, bayonets, munition, shoes, blankets, clothing and all kind of supplies. Some of the stores were successfully removed.

After a terrific explosion the men were ordered to cease their work but some of the marines entered the building a couple of times after the order was given. After the officers succeeded in getting the men out several were found to be slightly injured. Soldiers who have been stationed at the barracks for months said they believe the fire was incendiary. They saw several men at work and fire broke out shortly after they left and spread rapidly.

The first indication of the blaze was when smoke was seen rising from the building at nine o'clock. The general fire alarm was the first given. Later three city alarms were given. Forty-five minutes later several minor explosions were heard, believed caused by the small arms ammunition. At 10:05 a terrific explosion shook buildings in the vicinity. It was reported to have been caused by ammunition which had been stored in bulk. After the fire started no one was allowed to enter or leave the barracks. Soldiers and policemen at the scene spoke of many daring acts of the men. Sergeant White, of Co. B., Engineer Corps, entered the building to find some important papers. He was struck by a rock and was rendered unconscious. Private L. A. Ballou entered the burning buildings and picked up White from under a threatening wall where he was lying.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back
hurts or Bladder bothers.

We are a nation of meat eaters and
our blood is filled with uric acid, says
a well known authority, who warns
us to be constantly on guard against
kidney trouble.

The kidneys do their utmost to
free the blood of this irritating acid,
but become weak from the overwork;
they get sluggish; the eliminative tis-
sues clog and thus the waste is re-
tained in the blood to poison the entire
system.

When your kidneys ache and feel
like lumps of lead, and you have
stinging pains in the back or the
urine is cloudy, full of sediment, or
the bladder is irritable, obliging you
to seek relief during the night; when
you have severe headaches, nervous and
dizzy spells, sleeplessness, acid stom-
ach or rheumatism in bad weather,
get from your pharmacist about four
ounces of Jad Salts; take a table-
spoonful in a glass of water before
breakfast each morning and in a few
days your kidneys will act fine. This
famous salt is made from the acid of
grapes and lemon juice, combined with
lithia, and has been used for genera-
tions to flush and stimulate clogged
kidneys, to neutralize the acids in
urine so it is no longer a source of ir-
ritation, thus ending urinary and blad-
der disorders.

Jad Salts is inexpensive and can-
not injure; makes a delightful effe-
scent lithia-water drink, and nobody
can make a mistake by taking a little
occasionally to keep the kidneys clean
and active.

GEORGIA FARM MEETINGS

CARD OF THANKS

Jack Sheesley and family take this
method of returning their heartfelt
thanks to the many friends and
neighbors who so kindly assisted
them through the sickness and subse-
quent death of their wife and mother,
Mrs. Bertha Varner Sheesley. The
many kindnesses shown will be ever
thankfully remembered.

OBITUARY

MRS. BERTHA VARNER
SHEESLEY

Mrs. Bertha Sheesley, the beloved
wife of Jack Sheesley, passed away
at her home in Lawrence township,
near Clearfield on Wednesday January
9th, 1918, aged 40 years. Mrs. Shees-
ley's death was caused by tubercu-
losis and she had been an uncomplai-
ning sufferer for many months. She
was forced to take her bed at Thank-
sgiving time and gradually weakened
until the end came when surrounded
by her loving family her spirit winged
its silent flight to the realms
beyond the sky.

Mrs. Bertha Varner Sheesley was
a native of Punxsutawney and was
married to Jack Sheesley some twenty
years ago. The family has resided
near Clearfield for the past six years.
Mrs. Sheesley was a consistent Chris-
tian woman whose every thought was
for her home and loved ones.

She leaves to mourn the loss of a
devoted wife and mother, her husband
and the following children: Hazel,
Don, Bruce, Paul, Catherine, Lloyd,
Mrl and Ned.

Funeral services were held at her
late home on Saturday last and inter-
ment was made at Mt. Joy cemetery.

ILLINOIS WAR COUNCIL IS IN SESSION FOR TWO DAYS

Will be Addressed by Franklin Lane
and British Lawyer

Chicago, Ill., Jan. 14.—The first of
a series of state war councils which
the national council of defense has
arranged to hold in the middle west
was opened in this city today and
will be continued over tomorrow.

The Illinois conference is to be followed
by similar rallies in Kentucky, Iowa,
Missouri, Nebraska, Kansas and sev-
eral other states, the series to extend
over a period of about two weeks.
The chief aim of the movement is
to arouse public enthusiasm in the
prosecution of the war, to co-ordinate
the activities of the war workers, and
to give additional momentum to the
thrift campaign and various other na-
tion-wide movements in connection
with the war. Each state conference
is to be featured by a public mass
meeting at which the principal speak-
ers will be Secretary of the Interior
Franklin K. Lane and Sir Frederick
E. Smith, attorney-general of Great
Britain.

TAKE TANK ON RECRUITING TRIP

New York, Jan. 14.—In an effort to
give impetus to enlistments in the
British and Canadian forces, the
British armored tank Britannia,
which has brought to New York some
time ago for exhibition at the allied
relief bazaar, is to be started today
on an extensive recruiting tour of
the United States. Accompanying
the tank will be a squad of speakers
and Scotch pipers, as well as the
captured German submarine which
was used in the Liberty loan cam-
paign in this city and in the Victory
loan campaign in Canada. A tour of
the south will be made first, after
which the states of the middle west
will be visited.

her marriage was Miss Nellie Baker.

JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and
wash away the poisonous, stagnant
matter, says authority.

A glass of hot water with a teaspoonful of
limestone phosphate in it, drank each
morning before breakfast, keeps
us looking and feeling fit.

Life is not merely to live, but
to live well, eat well, digest well,
work well, sleep well, look well.
What a glorious condition to
attain, and yet how very easy it is
if one will only adopt the morning
inside bath.

Folks who are accustomed to
feel dull and heavy when they
arise, splitting headache, stuffy
from a cold, foul tongue, nasty
breath, acid stomach, can, instead,
feel as fresh as a daisy by open-
ing the sluices of the system each
morning and flushing out the
whole of the internal poisonous
stagnant matter.

Everyone, whether ailing, sick
or well, should, each morning,
before breakfast, drink a glass
of real hot water with a teaspoon-
ful of limestone phosphate in it
to wash from the stomach, liver,
kidneys and bowels the previous
day's indigestible waste, sour
bile and poisonous toxins; thus
cleansing, sweetening and puri-

fying the entire alimentary canal
before putting more food into
the stomach. The action of hot
water and limestone phosphate
on an empty stomach is wonder-
fully invigorating. It cleans out
all the sour fermentations, gases,
waste and acidity and gives one
a splendid appetite for breakfast.
While you are enjoying your
breakfast the water and phos-
phate is quietly extracting a large
volume of water from the blood
and getting ready for a thorough
flushing of all the inside organs.

The millions of people who
are bothered with constipation,
bilious spells, stomach trouble,
rheumatism; others who have
sallow skins, blood disorders and
sickly complexions are urged to
get a quarter pound of limestone
phosphate from the drug store,
which will cost but little, but is
sufficient to make anyone a pro-
nounced crank on the subject of
internal sanitation.

A Roanoke Hotel Man Finds Wonderful Remedy for Catarrh

Was Bothered So Much Himself He Was Actually Becoming Quite Deaf
When Friend Told Him Of Remarkable Medicine For It

"I used to be hawking and spit-
ting constantly during the day and at
night my head would clog up, making
me nervous, restless and unable to
sleep at times. Drippings of mucus
in my throat made me wake up each
morning with a nasty breath and bad
tasting mouth. I had catarrh so bad
it began to affect my hearing and I
was considered quite deaf," says a
well known hotel proprietor of Roan-
oke, Va., Mr. Jos. B. Kennerly.

"Then one day a friend told me
about Acid Iron Mineral and how this
iron was gotten out of the earth and
then concentrated and he said it was
powerful stuff. He told me it would
help my catarrh if I snuffed a little
mixed in water as strong as I could
stand. I started doing that and was
amazed how few drops I could stand.
It is a great stuff. Within a few hours my
head was cleared and sleep from that
time on was easy and restful. Breath-
ing was free and my hearing was

vastly improved. I certainly consid-
er it a wonderful remedy for catarrh.
I can't know whether many people
take it for that but it surely does the
work. I gladly recommend it to
others troubled as I was," declared
Mr. Kennerly.

Note: Hundreds of people have en-
dorsed Acid Iron Mineral for catarrh.
Folks wishing to get immediate relief
should try it. Don't put more than a
few drops in a glass of water at first.
Increase the amount of iron each day
for a few days and you'll be amazed
at results. Incidentally, it might be
mentioned that nothing under the sun
is better than Acid Iron Mineral for
sore throat. A little diluted and garg-
led, stops swelling and heals quickly.
A swallow or two won't hurt anyone.
Being just plain, natural iron, con-
centrated, it's about the handsomest
remedy about the house. Get a bot-
tle. The A-I-M trade mark is your
guarantee of strength and quality. All
druggists have it.

COURT NOTES

A petition was filed in the Prothonotary's office this morning by Attorney H. G. Boose asking Judge Bell to appoint Henry P. Kirk of Luthersburg, as tax collector for Brady township. This appointment is necessary because at the last November election the voters selected John Mehrwein for this collector, but as he was already a school director he was ineligible to serve and a new man had to be selected. Mr. Kirk was formerly a supervisor of roads.

Al Kline, John Nelson and J. Mans Read, appointed by the court to look after the roads in Pine township filed their report for the year 1917 with Prothonotary Moore this morning. His report shows an expenditure for the year of \$562.34.

E. G. Boose, Esq., filed his report this morning as Commissioner in the divorce case of Florence McFall vs. Wallace McFall, in which he recommends that a divorce be granted.

John A. Stock, guardian of the minor children of the late Mike Hunyadi, aged 13, 9, 4 and 2 years of Cooper township, has entered suit against the Penn Public Service company in which he asks damages for the death of Hunyadi who was electrocuted near Hawk run on August 16, 1917, by coming in contact with a charged iron bolt in a pole of the defendant company. Messrs. Reed, Holton & Forsyth represent the Plaintiff.

Attorney James A. Gleason of DuBois, filed a suit in the Prothonotary's office this morning in which John Bloom, of Tyler, demands \$937.50 from Hyman Witten and Sam Columbus, doing business as Hyman Witten, at Tyler. The plaintiff's statement recites that Witten and Columbus own a coal mine at Tyler, which had not been a paying investment. They asked Bloom, who is an experienced miner, to operate same for them and according to the terms of a verbal agreement Burns took charge of the mine. He was to put out the coal and was to receive \$1.65 per ton on the dump. He started January 1st and on January 4th Witten notified him that the deal was off and put another man in charge on January 7th. Bloom figured on making a profit of 25 cents per ton on the coal and brings suit for \$937.50, the amount he figures would have been due him up to April 1st under the terms of this verbal agreement.

Judge Bell is holding court at Washington, Pa., this week.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels, and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

BOY SCOUTS

(Conducted by N. H. Council of the Boy Scouts of America)

ENGLISH SCOUTS PREPARED

The boy scouts of Great Britain have had a message from Prime Minister Lloyd George, praising their readiness for service when the war broke out. The premier wrote:

"It is perhaps only since the beginning of the war, during these three years of constant drain upon the manhood of our nation, that we have come to realize the great value of the movement which your 'chief' inaugurated six years before. We all now see the meaning of the motto 'Be Prepared,' which the association has lived up to with such sincerity and success."

"I do not think I am exaggerating when I say that the young boyhood of our country, represented by the boy scouts' association, shares the laurels for having been prepared with the old and trusted and tried British army and navy. For both proved their title to make the claim when the great war broke upon us like a thief in the night."

"It is no small matter to be proud of that the boy scouts were able within a month of the outbreak of the war to give the most intelligent and energetic help in all kinds of service. When the boyhood of a nation can give such practical proofs of its honor, straightness and loyalty, there is not much danger of that nation going under, for those boys are in training to render service to their country as leaders in all walks of life in the future."

"I can only say to all sections of the movement, old scouts and new scouts, scout officers and patrol leaders, Go forward; stick to it to the end."

EACH SCOUT HAS AN AXE.

Repairing a Widow Neighbor's Arbor With Poles Cut From the Woods.

CHIEF GRUB SCOUT TALKS.

Hal B. Felleston, who knows a lot about farming and who is giving to the boy scouts the knowledge he supplies to a big railroad, has been designated "Chief Grub Scout." He says:

"Do a good deed every day. This applies to plant life as well as to animal life of the highest type. In our point of view, weeds, grasses and other wild growth, of course, do not exist in any carefully worked scout garden. No real good grub scout had to pull or hack away with a hoe at any seed, for the highest principle of good agriculture and good grub scouting is to turn upside down, roots in the air, the weed babies as soon as they appear. This uprooting of unwanted plant life gives the sun a chance to dry up the roots and kill the plants."

AMBULANCE FOR SCOUTS.

In recognition of the good work done by boy scouts at the time of the Eddy-Schum disaster Robert Steele, a retired lumberer of Marion, Pa., presented an automobile ambulance and complete outfit to the boy scouts.

The service which the scouts performed included work at the scene of the disaster, the driving of traffic in the city of Chester for two days, and the delivering of scores of telegrams to anxious relatives. On the night of the explosion many of the boys went without sleep in order to perform this service.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative system clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have aching pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in uric so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

GEORGIA FARM MEETINGS

Athens, Ga., Jan. 14.—The increased interest in all branches of the agricultural industry in Georgia is evidenced by the large attendance at the annual round-up of the State farm bodies which opened today at the State College of Agriculture. During the week meetings will be held by the Georgia Breeders' Association, the Georgia Dairy and Livestock Association, and the State Horticultural Society.

CARD OF THANKS

Jack Sheesley and family take this method of returning their heartfelt thanks to the many friends and neighbors who so kindly assisted them through the sickness and subsequent death of their wife and mother, Mrs. Bertha Varner Sheesley. The many kindnesses shown will be ever thankfully remembered.

OBITUARY

MRS. BERTHA VARNER SHEESLEY

Mrs. Bertha Sheesley, the beloved wife of Jack Sheesley, passed away at her home in Lawrence township, near Clearfield on Wednesday January 19th, 1918, aged 40 years. Mrs. Sheesley's death was caused by tuberculosis and she had been an uncomplicated sufferer for many months. She was forced to take her bed at Thanksgiving time and gradually weakened until the end came when surrounded by her loving family her spirit winged its silent flight to the realms beyond the sky.

Mrs. Bertha Varner Sheesley was a native of Punxsutawney and was married to Jack Sheesley some twenty years ago. The family has resided near Clearfield for the past six years. Mrs. Sheesley was a consistent Christian woman whose every thought was for her home and loved ones.

She leaves to mourn the loss of a devoted wife and mother, her husband and the following children: Hazel, Don, Bruce, Paul, Catherine, Lloyd, Mrl and Ned.

Funeral services were held at her late home on Saturday last and interment was made at Mt. Joy cemetery.

ILLINOIS WAR COUNCIL IS IN SESSION FOR TWO DAYS

Will be Addressed by Franklin Lane and British Lawyer

Chicago, Ill., Jan. 14.—The first of a series of state war councils which the national council of defense has arranged to hold in the middle west was opened in this city today and will be continued over tomorrow. The Illinois conference is to be followed by similar rallies in Kentucky, Iowa, Missouri, Nebraska, Kansas and several other states, the series to extend over a period of about two weeks. The chief aim of the movement is to arouse public enthusiasm in the prosecution of the war, to co-ordinate the activities of the war workers, and to give additional momentum to the thrift campaign and various other nation-wide movements in connection with the war. Each state conference is to be featured by a public mass meeting at which the principal speakers will be Secretary of the Interior Franklin K. Lane and Sir Frederick E. Smith, attorney-general of Great Britain.

JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

A Roanoke Hotel Man Finds Wonderful Remedy for Catarrh

Was Bothered So Much Himself He Was Actually Becoming Quite Deaf When Friend Told Him Of Remarkable Medicine For It

"I used to be hawking and spitting constantly during the day and at night my head would clog up, making me nervous, restless and unable to sleep at times. Drippings of mucus in my throat made me wake up each morning with a nasty breath and bad tasting mouth. I had catarrh so bad it began to affect my hearing and I was considered quite deaf," says a well known hotel proprietor of Roanoke, Va., Mr. Jos. B. Kennerly.

"Then one day a friend told me about Acid Iron Mineral and how this iron was gotten out of the earth and then concentrated and he said it was powerful stuff. He told me it would help my catarrh if I snuffed a little mixed in water as strong as I could stand. I started doing that and was amazed how few drops I could stand. I mixed half a glass of water. It is great stuff. Within a few hours my head was cleared and sleep from that time on was easy and restful. Breathing was free and my hearing was vastly improved. I certainly consider it a wonderful remedy for catarrh. I can't know whether many people like it for that but it surely does the work. I gladly recommend it to others troubled as I was," declared Mr. Kennerly.

Note: Hundreds of people have endorsed Acid Iron Mineral for catarrh. Folks wishing to get immediate relief should try it. Don't put more than a few drops in a glass of water at first. Increase the amount of iron each day for a few days and you'll be amazed at results. Incidentally, it might be mentioned that nothing under the sun is better than Acid Iron Mineral for sore throat. A little diluted and gargled, stops swelling and heals quickly. A swallow or two won't hurt anyone. Being just plain, natural iron, concentrated, it's about the handsomest remedy about the house. Get a hot-bottle. The A-I-M trade mark is your guarantee of strength and quality. All druggists have it.

COURT NOTES
A petition was filed in the Prothonotary's office this morning by Attorney H. G. Boose asking Judge Bell to appoint Henry P. Kirk of Luthersburg, Pa. as tax collector for Brady township. This appointment is necessary because at the last November election the voters selected John Mehrwein for this collector, but as he was already a school director he was ineligible to serve and a new man had to be selected. Mr. Kirk was formerly a supervisor of roads.
Al Kline, John Nelson and J. Mans Read, appointed by the court to look after the roads in Pine township filed their report for the year 1917 with Prothonotary Moore this morning. His report shows an expenditure for the year of \$562.34.
E. G. Boose, Esq., filed his report this morning as Commissioner in the divorce case of Florence McFall vs. Wallace McFall, in which he recommends that a divorce be granted.

John A. Stock, guardian of the minor children of the late Mike Hunyadi, aged 13, 9, 4 and 2 years of Cooper township, has entered suit against the Penn Public Service company in which he asks damages for the death of Hunyadi who was electrocuted near Hawk on on August 18, 1917, by coming in contact with a charged iron bolt in a pole of the defendant company. Messrs. Reed, Holton & Forsyth represent the Plaintiff.
Attorney James A. Gleason of DuBois, filed a suit in the Prothonotary's office this morning in which John Bloom, of Tyler, demands \$937.50 from Hyman Witten and Sam Columbus, doing business as Hyman Witten, at Tyler. The plaintiff's statement recites that Witten and Columbus own a coal mine at Tyler, which had not been a paying investment. They asked Bloom, who is an experienced miner, to operate same for them and according to the terms of a verbal agreement Burns took charge of the mine. He was to put out the coal and was to receive \$1.65 per ton on the dump. He started January 1st and on January 4th Witten notified him that the deal was off and put another man in charge on January 7th. Bloom figured on making a profit of 25 cents per ton on the coal and brings suit for \$937.50, the amount he figures would have been due him up to April 1st under the terms of this verbal agreement.
Judge Bell is holding court at Washington, Pa., this week.

How to get more wear from fine waists and lingerie
IN these days of war prices, it's a necessary, yet simple, economy to make dainty fabrics wear longer. You couldn't replace your fine clothes today at anything like the prices you've paid for them.
All clothes—and especially fine fabrics—wear much longer when washed with Fels-Naptha. Because Fels-Naptha makes unnecessary the use of boiling water—so destructive to delicate fabrics.

BAD BREATH
Dr. Edwards' Olive Tablets Get at the Cause and Remove It
Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels, and positively do the work.
People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar coated tablets are taken for bad breath by all who know them.
Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.
All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping pain or any disagreeable effects.
Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.
Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

BOY SCOUTS
(Conducted by N. H. Council of the Boy Scouts of America)

ENGLISH SCOUTS PREPARED
The boy scouts of Great Britain have had a message from Prime Minister Lloyd George, praising their readiness for service when the war broke out. The premier wrote:
"It is perhaps only since the beginning of the war, during these three years of constant drain upon the manhood of our nation, that we have come to realize the great value of the movement which your 'chief' inaugurated six years before. We all now see the meaning of the motto 'Be Prepared,' which the association has lived up to with such sincerity and success."
"I do not think I am exaggerating when I say that the young boyhood of our country, represented by the boy scouts' association, shares the laurels for having been prepared with the old and trusted and tried British army and navy. For both proved their title to make the claim when the great war broke upon us like a thief in the night."
"It is no small matter to be proud of that the boy scouts were able within a month of the outbreak of the war to give the most intelligent and energetic help in all kinds of service. When the boyhood of a nation can give such practical proofs of its honor, straightness and loyalty, there is not much danger of that nation going under, for those boys are in training to render service to their country as leaders in all walks of life in the future."
"I can only say to all sections of the movement, old scouts and new scouts, scout officers and patrol leaders, Go forward; stick to it to the end."

EACH SCOUT HAS AN AXE.

CHIEF GRUB SCOUT TALKS.
Hal B. Felleston, who knows a lot about farming and who is giving to the boy scouts the knowledge he supplies to a big railroad, has been designated "Chief Grub Scout." He says:
"Do a good deed every day. This applies to plant life as well as to animal life of the highest type. In our point of view, weeds, grasses and other wild growth, of course, do not exist in any carefully worked scout garden. No real good grub scout had to pull or hack away with a hoe at any seed, for the highest principle of good agriculture and good grub scouting is to turn upside down, roots in the air, the weed babies as soon as they appear. This uprooting of unwanted plant life gives the sun a chance to dry up the roots and kill the plants."

AMBULANCE FOR SCOUTS.
In recognition of the good work done by boy scouts at the time of the Eddy-Sumner disaster Robert Steele, a retired farmer of Marion, Pa., presented an automobile ambulance and complete outfit to the boy scouts.
The service which the scouts performed included work at the scene of the disaster, the directing of traffic in the city of Chester for two days, and the delivering of scores of telegrams to anxious relatives. On the night of the explosion many of the boys went without sleep in order to perform this service.
